Date: April 16, 1974

Item No.: WH #1

DIRECTOR: WHITE HOUSE SITUATION ROOM

SUBJECT: ISRAELI - ARAB STATES MILITARY SITUATION

25X1

Yesterday's action on the Syrian front was considerably less intense than that over the weekend. Artillery, tank, and small arms fire was reported along the front, with much of the action again centered on the Mount Hermon area. The Israelis have reported two wounded; there were no reports of Syrian casualties.

UN observers have reported some sporadic artillery firing early this morning at the front.
